Real Estate System – User Acceptance Test

By: Danny Lin, Helen Lin, Matt Chiappa, Steve O'Brien

TEST SCRIPT: 1.01 (Customer Log In)					
Action Step	**Test Action**	*Expected Results*	**Meets Expected** Yes	No	**Comments**
1	User enters his valid login name and password and clicks the **Login** button.	The system verifies that the id and password combination matches a valid user, and displays correct view for customer.	X		Works as expected. Validated logon.

TEST SCRIPT: 1.02 (Agent Log In)					
Action Step	**Test Action**	*Expected Results*	**Meets Expected** Yes	No	**Comments**
1	Agent enters his valid login name and password and clicks the **Login** button.	The system verifies that the id and password combination matches a valid user, and displays the agent main screen.	X		Works as expected. Validated logon.

TEST SCRIPT: 1.03 (Invalid Log In)					
Action Step	**Test Action**	***Expected Results***	**Meets Expected** **Yes**	**No**	**Comments**
1	Customer or agent enters an invalid login name and password and clicks the **Login** button.	The system verifies that the id and password combination does not match a valid user.	X		Works as expected. Popup box advised of invalid username for the user.

TEST SCRIPT: 1.04 (Register Customer)					
Action Step	**Test Action**	***Expected Results***	**Meets Expected** **Yes**	**No**	**Comments**
1	Customer attempts to register and login with the user id and password they have entered.	The system saves the customer information and is able to be logged in. The customer should be limited in the authority of the properties.	X		Works as expected. Was able to login using the account that I created (account: Austin)

TEST SCRIPT: 1.04 (Register Agent)					
Action Step	**Test Action**	***Expected Results***	**Meets Expected** **Yes**	**No**	**Comments**
1	Agent attempts to register and login with the user id and password they have entered.	The system saves the agent information and is able to be logged in. The agent should have all authority of the properties.	X		Works as expected. Validated logon

TEST SCRIPT: 2.01 (Customer Account Information)					
Action Step	**Test Action**	*Expected Results*	**Meets Expected** Yes	No	**Comments**
1	Customer clicks **Account Information** and attempts to change the information associated with their account	System will save whatever information that was changed and display it correctly in the database.	X		Tested a changed telephone number. Successfully saved to the database.
2	Customer clicks **Change Password** and attempts to change the password associated with their account	System will save password that was changed and display it correctly in the database.	X		Tested a correct and incorrect old password. Did not work with old password. Changed to new password properly.

TEST SCRIPT: 2.02 (Customer Check Offer Status)						
Action Step	**Test Action**	***Expected Results***	**Meets Expected**		**Comments**	
			Yes	**No**		
1	Customer clicks **Check Offer Status** to see what is the status on each offer they made.	Customer will see the offers placed already and see if they were accepted or rejected yet.		X	Button reads "Check Offer History" instead of "Check offer Status." Functionality works however.	

TEST SCRIPT: 2.03 (Customer Log Out)						
Action Step	**Test Action**	***Expected Results***	**Meets Expected**		**Comments**	
			Yes	**No**		
1	Customer clicks **LOG OUT** and attempts to log out of the application	Customer will be logged out and the program will return to the log in window.	X		Customer was able to logout.	

TEST SCRIPT: 3.01 (Agent Account Information)						
Action Step	**Test Action**	***Expected Results***	**Meets Expected**		**Comments**	
			Yes	**No**		
1	User clicks **Account Information** and attempts to change the information associated with their account	System will save whatever information that was changed and display it correctly in the database.	X		Was able to change first name of the user	

TEST SCRIPT: 3.01 (Agent Account Information)					
Action Step	**Test Action**	**Expected Results**	**Meets Expected**		**Comments**
			Yes	**No**	
2	User clicks **Change Password** and attempts to change the password associated with their account	System will save password that was changed and display it correctly in the database.	X		Was able to change the password of the agent.

TEST SCRIPT: 3.02 (Agent Check Offers)					
Action Step	**Test Action**	**Expected Results**	**Meets Expected**		**Comments**
			Yes	**No**	
1	Agent clicks **Check Offers** to see if any Customers attempted to make an offer on a listing	System will display any offers made to the properties that they have created.	X		Pending offers listed.

TEST SCRIPT: 3.03 (Agent Add Listing)					
Action Step	Test Action	Expected Results	Meets Expected Yes	No	Comments
1	Agent clicks **Add Listing** in order to add a property listing to the system	Agent will add listing to the database and a customer will be able to view the listing in their view.	X		Was able to successfully add the listing

TEST SCRIPT: 3.04 (Agent Log Out)					
Action Step	Test Action	Expected Results	Meets Expected Yes	No	Comments
1	Agent clicks **LOG OUT** and attempts to log out of the application	Agent will be logged out and the program will return to the log in window.	X		Was able to logout.
